

SwiftShield Market Success and Ordering Improvements

The SwiftShield product line is growing this year with sales more than doubling last year's volume! To handle this increased demand and make it easier to order covers, we have created a covering ordering portal. SwiftShieldcovers.com contains an up-to-date [cover library](#) of existing patterns, [simplified ordering](#) and an easy click-to-pay system without any additional credit card fees. You will also find a [photo gallery](#) of existing installations that dealers have shared with us and [training resources](#) for accurate measuring.

Lead times are currently at one to two weeks and we are now sourcing covers from multiple qualified cover fabricators.

We are now offering covers up to 40' Length Overall (LOA).

Cover Ordering Process

1. Visit Swiftshieldcovers.com and check the [Cover Library](#) to see if your boat is in our system.
 - If the boat is not in our Cover Library, measure and photograph the boat and then proceed to step 2.
 - If the boat is in our Cover Library, photograph the boat and proceed to step 2.
2. Click on the [Cover Order Form](#) button. The form will prompt you for boat, cover color, contact details, boat pictures and measurements if applicable.
3. After we receive your completed Cover Order Form, we will review the order and email you a cover model number, your dealer cost, expected lead time and a click-to-pay credit card processing invoice.
4. After receiving your full payment, we will contact your cover fabricator who will then fabricate your cover, ship it directly to you with a paid-in-full invoice and provide you with post-sale warranty and cover support.

Please note that fabric types and lead times may vary by cover fabricators who specialize in different fabrics.

Updated SwiftShield Cover Price List 6/1/19
