

# SUNSTREAMER

Sunstream Dealer Newsletter  
August 2019

---

**Sunstream Quick Disconnect Prototype Sneak  
Peek**

Sunstream is working with a leading Quick Disconnect (QD) company to develop the best QD for Sunstream lifts. We have received feedback over the years for desired features, and we would like to solicit more feedback from the entire dealer network.

This next generation QD is designed to be more durable, easier to use, and have better flow. Since this will be made specifically for Sunstream, we will also not be at risk for a supplier changing the design like we have experienced this past year, and we are defining higher quality assurance standards.

Our goal is to have the best QD in the industry, so if you have any input, please talk with your Regional Sales Manager.

---

**Fall Program is Coming!**

Sunstream sales representatives will soon be calling qualified dealers to discuss the upcoming Fall Program sales incentives.

This year's Fall Program order taking period will end on September 30, 2019, the same day as the new pricing goes into affect so be sure to stock up on your best-sellers and close your open deals now!

---

## ***Did You Know...?***

The Sunstream Dealer Center has a variety of Sunstream logo transparencies as well as product manuals for your review. Check out the link below:
